Clampco Now Utilizing E-Verify For New Employee Hires

Wadsworth, OH. (June 28, 2016) -- Clampco Products, Inc. is now utilizing E-Verify, to verify new employee information. This online, service managed by the U.S. Department of Homeland Security, allows companies such as Clampco to verify employee data against millions of government records in a matter of seconds.

“Clampco’s continued growth in Military and Aerospace sectors requires a fast and easy method to verify employee information, while meeting Government compliance regulations,” says Jason Venner, Human Resource Manager for Clampco Products. “E-Verify is an efficient and accurate tool to meet these requirements.”

E-Verify is an Internet-based system used by over 600,000 employers to verify and compare information from an employee's Form I-9, Employment Eligibility Verification, to data from U.S. Department of Homeland Security and Social Security Administration records to confirm employment eligibility. For more information on E-Verify, visit the www.dhs.gov/E-Verify.
